

Rami Mizyed

Full Stack Engineer

me@ramimizyed.dev • ramimizyed.dev • github.com/ramimizyed

SUMMARY

Creative and detail-oriented Senior Frontend & Full Stack Developer with 7+ years of experience building scalable, high-performance web applications using React, Next.js, TypeScript, and Node.js. Skilled in crafting accessible UI/UX, optimizing for SEO and performance, and integrating AI-powered features with modern frameworks. Passionate about clean architecture, developer experience, and automation.
YES Program 2014 Alumni – Kennedy-Lugar Youth Exchange and Study.

EXPERIENCE

Senior Frontend Developer

Feb 2024 - Present

Global Campus Human Rights

- Engineered a component library and design system using WordPress (Kadence + Elementor) with custom JavaScript/CSS enhancements, extending functionality beyond plugin limits.
- Developed responsive, accessible layouts (WCAG 2.1) and optimized for Core Web Vitals and SEO.
- Integrated custom UI animations (GSAP, CSS transitions) for enhanced UX and performance.
- Designed a scalable color, typography, and spacing system for brand consistency and reusability.
- Collaborated cross-functionally with stakeholders to align UI/UX design with NGO requirements.

Lead Full Stack Developer

Mar 2022 - Jan 2024

SalesMarket

- Led full-stack architecture using React, Node.js, Express, PostgreSQL, and TypeScript, delivering scalable, maintainable systems.
- Built dynamic dashboards, product management modules, and real-time analytics tools.
- Improved backend performance with optimized database queries, caching, and API endpoints.
- Implemented CI/CD pipelines (GitHub Actions, Docker) and led code reviews to maintain quality.
- Mentored junior engineers, enhancing team productivity and collaboration under Agile methodology.

Web Developer / UI/UX Designer

May 2021 - May 2022

BlueClip (JellySmack)

- Designed and implemented interactive web experiences with React, GSAP, and Framer Motion.
- Produced multimedia content and visuals to enhance user engagement and brand identity.
- Collaborated with creative and engineering teams to align UX, motion design, and accessibility goals.

PROJECTS

CV Maker

cvmaker.ramimizyed.dev/

React, Next.js, D3.js, TailwindCSS

- A client-side CV generator with export and template customization.

Zaytun Component Library

ramimizyed.dev/projects/Zaytun

Next.js, TypeScript, Tailwind CSS

- Reusable, accessible UI components for production-ready frontends.

Green Awareness

greenawareness.org

React, GSAP, Framer Motion, WordPress

- A sustainability-focused platform promoting environmental awareness through data visualization, interactive content, and community engagement. Designed and developed the entire system architecture, including frontend UI, backend APIs, and responsive layouts. Integrated real-time environmental data sources and AI-powered insights to highlight the impact of sustainable practices. Focused on accessibility, performance, and scalability to deliver an engaging, educational user experience.

EDUCATION

B.S. in Computer Science

Aug 2017 - May 2021

Ankara University

SKILLS

React.js

Next.js

TypeScript

JavaScript (ES6+)

TailwindCSS

GSAP

Framer Motion
